

Digital Detox - Ideathon Project

Objective:

- Reduce social media addiction and promote mindful digital usage.

Concept:

- A website/platform to educate and motivate users for digital detox.
- Includes challenges, daily tasks, progress tracking, and awareness tips.

Key Features:

1. Daily/Weekly Challenges - Users attempt short detox tasks.
2. Mindful Usage Tips - Educational content about screen addiction.
3. Progress Tracker - Shows time spent offline, streaks, and badges.
4. Optional Interactive Quiz - Simple question-answer format for awareness.

Implementation (Prototype Level):

- HTML/CSS website with sections for Challenges, Tips, Tracker, and Quiz.
- Use colorful cards, progress bars, and hover effects to make interactive.
- Optional minimal JS for checkbox tracking or quiz simulation.

Impact:

- Encourages conscious social media use.
- Promotes healthier screen habits and mental well-being.
- Scalable to larger student groups or community programs.
